Tabooes Treating.

In conclusion the speaker said: "I am satisfied that the time is coming when the man who becomes intoxicated will be treated as a criminal and will be punished with the utmost severity; and I, furthermore, believe that the time is coming when the people of this country will give up and resent what is known as the treating habit, even as the people in continental Europe have done."

Validity of Charter Sustained.

Austin, Jan. 21.—By refusing the writ of error in the case of Orrick vs. city of Fort Worth the supreme court sustained the validity of the charter of that city. The attorney general will now approve the issue of \$150,000 street and school bonds of that city which have been held up pending action.

OLD RULES RETAINED.

Two-Cent Railway Fare Bill Introduced in House.

Austin, Jan. 21.—At joint meeting of the house and senate committees on rules, the rules in effect by the Thirtieth legislature were adopted for the Thirty-first legislature without a change. This is important in view of the fact that it had been reported that the rules would be amended so as not to allow heads of departments on the floor of the house or senate, which privilege they now enjoy.

A 2-cent passenger fare bill on Texas roads was introduced in the house by Representative Fuller. This bill will meet with determined opposition by railroads, representatives of which are here in full force. This is one of the governor's recommendations in his message.

Among other bills introduced were: By Porter: To prevent recording of deeds conveying property upon which all taxes are not paid.

By Bowman: Establishing agriculture experiment station in his district, which is the Paghdale.

In the senate Thursday the house concurrent resolution providing for the appointing of a committee to investigate noninterference.

MEETINGS LAST SIX DAYS

Three Days' Sessions in Chicago to Be Followed by "Child Labor Sunday" and Also Conference of Two Days at National Capital.

Chicago, Jan. 21.—The opening in this city today of the fifth annual child labor conference under the auspices of the national child labor committee marked the beginning of six days of continuous work in behalf of children by the leading philanthropists and sociologists of the United States.

The conference will be in session in Chicago until Saturday evening. Sunday will be "child labor day" in churches throughout the country, by request of the national child labor committee, which has worked hard to secure the co-operation of clergymen in the work.

Conference in Washington.

On Monday and Tuesday of next week there will be held in Washington a two days' conference on the needs of dependent children, opening with a meeting of the laborers in this field at the White House. The meeting was called by President Roosevelt, and he will welcome the conferees.

Although the Chicago meetings will discuss many phases of the child labor question, their main purpose is the advocacy of the establishment of a federal children's bureau, charged with the duty of looking after the interests of the country's children. This is the purpose of a bill introduced in the United States senate Jan. 10 by Senator Crane of Massachusetts. It aroused merriment among the members of the senate, who amused themselves with puns on the name of Crane, comparing it with that of the stork. Several of the conferees expressed indignation at the senate's levity, declaring that the subject of the bill is one of the most serious matters now before the country.

Indorsed by President Roosevelt.

A bill to establish a national children's bureau was introduced in the United States senate in the winter of 1905-6 at the request of the national child labor committee. The bill did not come to a vote, although it received the hearty endorsement of President Roosevelt and the secretary of

INSPECTORS NEEDED.

Entomologist Herrick Asks Aid in Protecting Honey Industry.

I desire to call your attention to the situation regarding foul brood of bees in this state. The conditions are becoming more and more serious and need the careful consideration of every member of the legislature. Texas is now the leading honey producing state and many thousands of dollars are invested in bees. Foul brood is a most destructive disease and is already causing serious and widespread loss. Unless active steps are taken pretty soon the bee industry of this state will be seriously injured, and, in some localities, actually annihilated.

Foul brood can be controlled if we had money enough to maintain a thorough inspection of the apiaries of the state. We have the law and now we need money enough to carry on the inspection.

I have asked for \$5000.00 for the ensuing two years. This is reasonable and really is not half enough. We shall have to hire a good man as inspector to look after this work and do the inspecting. By the time he salary is paid there will not be enough left for his traveling expenses because the state is large. Besides, we ought to have local inspectors here and there in the state. One man cannot hope to cover the whole territory and, besides, it will be absolutely necessary to place a local inspector for a few weeks in certain, far away, isolated localities.

I wish you would give your careful attention to this needed work. You will not find a more practical or a more beneficial field in which to aid the people of Texas. Very sincerely yours, GLENN W. HERRICK, Entomologist A. and M. College of Texas.

Department of the interior as well as of many members of both houses of congress.

The Chicago and Washington conferences will be notable gatherings of men and women interested in the work of bringing effective aid to child laborers and dependent little ones. Prominent among the persons who will attend both meetings are Lillian D. Wald, the originator of the idea of a federal children's bureau; Jane Addams of the Hull House, Chicago; Judge Lindsey of the children's court of Denver and Rabbi Emil G. Hirsch of Chicago.

Pistol Beside Corpse.

Sheridan, Ark., Jan. 21.—W. P. Goodman, editor of the Leola Gazette, was found dead near that town by citizens who had been scouring the country for some time with torches, as he had been missing from home some hours. Mr. Goodman's pistol was found by his side, and it is supposed he killed himself. He was editor and general manager of the Farmers' Union Publishing company.

Gas Pipe Line Completed.

Wichita Falls, Tex., Jan. 21.—Gas line from Pottsville has been completed to Wichita Falls. Several miles of mains are laid in the city. Gas will be supplied patrons next week. This is the first Texas town to get natural gas, but others will soon follow.

Troops in Burned District.

Messina, Jan. 21.—For fear flames may again break out troops are held in the burned district.

OKLAHOMA OCCURRENCES.

Woodward is to have a \$75,000 schoolhouse.

Three mines at Brewer have been temporarily closed.

Mrs. Susan C. Brown, eighty-eight years old, died at Perry.

J. F. Johnson died in a Minco hotel from an overdose of morphine.

First State bank of Anadarko, capital stock \$10,000, has been chartered.

Since Jan. 1 sixty-five army recruits have been enlisted in Oklahoma.

The Rock Island railway will install at Yukon a water plant to clean boilers.

A tree near Walter that J. E. Evans and Frank Pierce felled fell on them, killing both.

Sam Rogers, a youth, lost his life in a runaway near Ardmore. His body was horribly mangled.

Master Bakers' Association of Oklahoma, in session at Oklahoma City, selected Tulsa for next meeting place.

Unknown persons cut up the tables in Boyd's pool hall at Gage, and deposited the halls in an outhouse.

Henry Oil and Gas company of Bartlesville has filed a \$75,000 mortgage to secure a loan for improvements.

The infant of Samuel Willingham fell from its mother's arms while the parents were in their wagon. A wheel crushed the little one's skull, causing instant death.

The aged mare of D. D. Blakeslee, with whom that gentleman made the run into the Cherokee strip, broke a leg at Billings and had to be killed. She was over twenty-four years old.

James L. Walker, who was a flag bearer in the funeral procession of President Lincoln at Springfield, Ill., will participate in the Lincoln centenary exercises at Oklahoma City, where he resides.

Report Partly True.

New York, Jan. 21.—The report that the Hill lines in Texas will soon merge is learned to be partly true. It is announced that the Colorado and Southern, of which Fort Worth and Denver is the Texas branch, will consolidate with the Wichita Valley and Stamford and Northwestern. The Abilene and Southern and Abilene and Northwestern are not to be included in the deal. A law permitting the merger will be asked of the Texas legislature.

To Determine by Vote.

Fort Worth, Jan. 21.—R. G. Lee of Denton, who built at that city the only monument in the world to John D. Rockefeller, is here. He announces he will build another monument at Denton in honor of the greatest woman philanthropist. His will inaugurate a voting contest to determine who the woman is. Lee says he has a letter from Rockefeller saying he will come to Texas to attend the unveiling.

Close Cremation Call.

Dallas, Jan. 21.—A. L. Threadgill and family of Oak Cliff narrowly escaped death in the flames. The residence was consumed. They were aroused just as the roof was falling in.

MODEL LICENSE LEAGUE.

Its Object Explained by Head of the Organization.

Louisville, Jan. 21.—The National Model License league is in session here.

The avowed purpose of the league is to take the saloon out of politics and keep it there and exclude all law breakers from the retail liquor business whatever the law in their communities. The league would submit to the people of each political communal division various questions as to how the majority of them want the liquor trade regulated.

"The people do not want prohibition, but they want a reform, and when we prove that we, too, want reform, when we gain the confidence of the public, the prohibition wave will recede and the Anti-Saloon league will find its occupation gone." So declared President T. M. Gilmore. Mr. Gilmore discussed reform movements and the prohibition wave, which he declared to be a protest against things that ought not to be; against conditions that ought not to continue. Mr. Gilmore said he was satisfied that the prohibition movement will ultimately result in good to the liquor trade and to society, but he insisted that it should be carried along in a less radical way, and that the reforms desired should be brought about without such tremendous losses as are being entailed through the passage of prohibitory laws.

"The people of this country do not want prohibition," he insisted, "nor do they want the saloon unless the saloon is properly conducted."

"The saloon, if properly conducted, is a very good convenience, but the saloon that is run in connection with gambling, and that violates law, and that sells to minors and to men who are intoxicated, is certainly out of touch with civilization; it is an offense to modern thought, and it should be stamped out by a mandatory penalty that is absolutely merciless in its provisions."

Saloon Substitute Necessary.

Mr. Gilmore said that if the saloon should be permanently abolished it will be found necessary to provide a substitute, because the strenuous life incident to modern civilization demands a place of relaxation, where friend can meet friend, and where worries and cares and responsibilities of life may, for the time being, be put aside.

"The Anti-Saloon league," he continued, "is not advocating prohibition, and to one who is familiar with the situation all of this talk about 'dry territory' is nothing more than an absurdity. There is no 'dry territory' in this country, although there are a number of states and a great many counties, aggregating in area probably one-half of the United States, in which laws have been adopted prohibiting the sale, and in some cases the manufacture of alcoholic beverages. A law merely prohibiting the sale of alcoholic beverages, however, cannot affect the purchase and use of alcoholic beverages any more than a law that might prohibit the sale of cigars would affect the consumption of cigars."

The speaker said that since the passage of prohibition laws in such states as Georgia and Oklahoma shipments of whisky and of beer to those states have been phenomenally large.

Alive to Its Weakness.

The Anti-Saloon league, he said, was fully alive to the weakness of its cause and that its leaders know that the people of this country do not want prohibition. He declared that the Rose law in effect in Ohio was doomed to be absolutely nullified and in time to be repealed, as it would not bring the desired reform.

"We contend," said he, "that it is absolutely essential to the solution of this problem that all licenses to retail liquors shall continue in this country as they continue in Europe—that is, that the saloonkeeper's license to do business shall continue without any possible interference, or any power of cancellation, unless it be by a majority vote of the people or else by conviction in a court of competent jurisdiction of the violation of law."

"A license of this character would immediately remove the saloonkeeper from the realm of politics; it would save him from the demands of the blackmailer; it would give him a feeling of permanency and a desire to conduct a business that is to be permanent in the best possible manner."

"We, furthermore, contend that no more more licenses ought to be issued until the proportion is not greater than one for each 500 of population, so that each of these licenses would possess a very great value."

"We also contend that the price paid by the saloonkeeper each year for the privilege of doing business should be reasonable."

"We then insist that, in consideration of so valuable a license, the penalty for the violation of law should be mandatory, and that no discretion should be lodged with any judge or licensing board."

"It is our idea that for the first conviction of the violation of law on the part of a saloonkeeper or of his employees in the conduct of his business, his license would be suspended for a period of thirty days; and that for the second conviction his license should be absolutely cancelled and that he should not again be licensed to retail liquors in the state."

This, Mr. Gilmore said, would solve what is known as the liquor problem insofar as the sale of alcoholic beverages is concerned. This problem solved the more important problem of intemperance on the part of the individual could be taken up he said.

RELATIVES DID NOT MEET HER.

Little Brazos County Girl Found
Friends Among Strangers.

A few days ago the Morning Eagle
noted the departure of Little Miss
Lois Peters, niece of Mr. W. L. Utsey
of Wixon, for her home in Alabama.
Yesterday Mr. J. Bert Graham re-
ceived the following clipping from a
Mobile paper in regard to her:

"Lois Peters, a little nine-year-old
white girl alighted from a north-
bound Louisville and Nashville pas-
senger train last night at a late hour
and said that she came from Bryan,
Texas."

"There was no one to meet her and
she was taken in charge by Officers
Harris and McCarren, brought to the
police station and questioned, after
which Mrs. E. Stiles, hearing of the
case, took her in charge, and she is
with her until relatives can be lo-
cated."

"The child said she expected to
meet an uncle here, Mr. J. M. Dansby
of South Carolina, but he failed to
meet her. She said further that she
has a cousin by the name of Dansby,
who is a school teacher at Silas, Ala.,
on the line of the Tombigbee River
Valley railroad, near Chatham, Ala."

No doubt the little lady is safe with
her relatives by this time.

Weather Notes.

Galveston, Texas, January 20.—The
upper Lake region disturbance has
moved beyond the limits of ob-
servation, while that of the north
Pacific coast is now central over the
northern portions of Montana and
North Dakota. An area of high pres-
sure of moderate energy overlies the
eastern portion of the country. Rain
has occurred on the Pacific coast, in
the plateau, and in the lower Mis-
souri valley. It has been heavy on
the Pacific coast and very light in
the last named district. Elsewhere
it has been generally fair. The tem-
perature has risen in nearly all por-
tions of the country. The rise has
been most marked in the northwest,
north Atlantic states, and Texas.
At time of report the temperature in
this State ranged from 44 degrees at
Amarillo to 62 degrees at Corpus
Christi and was above 50 degrees in
all portions except the Panhandle.

ceipts of the Cozy tonight, and a good
program has been arranged. Mr. J.
D. Ganter will sing and Meredith
James and Jim Thomas will perform
acrobatic stunts. First show will
begin promptly at 7 o'clock; second
show immediately after the Choral
Club Recital.

The piano used in the musical
department of T. W. C. was placed in
the opera house last evening for the
concert to be given there by the
Ladies Choral Club tonight. The
ladies have striven diligently for the
past several months, and have per-
fected a program that will please, and
is worthy the patronage of all. It
is to be hoped that every seat in the
house will be occupied when the cur-
tain goes up tonight. We believe
that the people of this city will test-
ify by their presence not only the in-
terest they feel in this fine musical
organization, but also add evidence
to Bryan's established reputation as
a musical center—a community of
music lovers and patrons of this, the
highest form of art.

NOTICE!

at the opera house this evening at
7:30 prompt. Anyone not in attend-
ance will forfeit her right to sing in
the concert.

J. B. GRAHAM.

JUSTICE TO EDGAR ALLEN POE.

There was considerable indignation
in the literary circles of Bryan over
the false statements and unjust as-
persions in what purported to be a
sketch of the life, works and charac-
ter of Edgar Allen Poe, which ap-
peared in The Eagle news columns
last Tuesday, the one hundredth an-
niversary of the birth of the great poet.
It came in the regular course of The
Eagle's news service, was printed in
the news columns, and the editors
are in no sense responsible for the
mis-statement of fact and malignant
spirit of this scurrilous screed. It
was the intention of the editor to do
justice to the memory of Poe, but as
the ladies of the M. I. C. Club will
celebrate the centenary anniversary
of his nativity next week and Mrs. M.
W. Sims will read a paper on that oc-
casion which will completely vindi-
cate him and turn the searchlight on
the ghouls who still prow round his
grave, we gladly surrender this work
of love to such able hands.

DR. GEORGE R. TABOR.

The editor-in-chief was pleased to receive Dr. George R. Tabor in the Eagle sanctum yesterday. In the pleasant conversation that ensued Dr. Tabor related as an interesting coincidence that his father, Maj. Tabor, located at Bryan on the 18th of January, 1857, being at that time 40 years of age. Dr. Tabor returned to Bryan to make his permanent home last Monday, which was also the 18th of January, and he is now of the same age that his father was when he came here. Dr. Tabor spoke also of many changes in the topography of Bryan, among others that where the Eagle office and the adjoining brick buildings now stand there was a ravine and that the wooden buildings then on the same site were elevated on posts so high that horses were hitched under them.

Sebesta-Blazek.

Adolph Sebesta and Miss Josie Blazek were married last night at 8:30 o'clock at the residence of Mr. Joseph Zak in this city. Judge A. G. Board officiating. The room was beautifully decorated with foliage, ferns and palms. Only a few friends and near relatives were present. After the ceremony a nice supper was spread. Mr. and Mrs. Sebesta will reside at Rock Prairie, where the groom is engaged in farming. Mrs. Sebesta is a daughter of Mr. Frank Blazek of Rock Prairie, one of Brazos county's foremost Bohemian citizens. The groom is a son of the late John Sebesta, Sr., who was favorably known in Bryan and Brazos county.

Mrs. Sebesta is a sister of Mrs. Joseph Zak, Mrs. George Nedbalek and Mrs. F. Konenecy, all of whom reside in Bryan.

Carrie Nation Invades London.

London, Jan. 21.—Mrs. Carrie Nation having been released from custody in Newcastle on a promise to leave the city, has concluded arrangements to appear on the variety stage in London. Next Monday she will make her debut at the Canterbury Music Hall and the Paragon, in the East End.

Mrs. Nation is highly delighted at the prospect of carrying on her crusade against alcohol in the very heart of the English capital. She will commence her London tour tomorrow by taking part in the popular Sunday services at the Shakespeare Theater in Battersea.

Her object in coming to London, she declares, is to urge upon the authorities the necessity of promulgating at once a total prohibition law. She is particularly anxious to start rescue work in the East end, where it is most needed.

Philadelphia Automobile Show.

Philadelphia, Pa., Jan. 21.—Philadelphia's Automobile show for 1909 will hold forth in the Second Regiment Armory during the coming week and for eight days the automobile will rule, before it drops back to its normal position among the pleasure and commercial vehicles. The Philadelphia Automobile Trade Association, under whose auspices the exhibition is given, has secured the cream of the exhibits at both of the recent shows held in New York. That the exhibition will be the most successful as well as the largest of its kind ever given in Philadelphia is already assured. The management counts upon a total attendance of at least 200,000 during the eight days of the exhibition.

Davis of Brazos.

Hon. W. C. Davis, representative in the legislature from Brazos county, is receiving due recognition of his abilities from Speaker Kennedy and his fellow members. Of the committees that have been appointed by the speaker up to this time, Mr. Davis has been made chairman of Judiciary No. 1, which is considered the highest honor at the hands of the speaker. He is also a member of the committee on Banks and Banking, and other minor committees. Speaker Kennedy has been ill since last Thursday and during his absence, Mr. Davis has been acting speaker.

QUICK WORK.

The Southwestern Life Insurance company of Dallas, has broken the record for quick work in the settlement of a death loss. The proof of the death of Mrs. L. B. Medola was forwarded to the home office in Dallas on the noon train Tuesday by Joe B. Reed local agent, received and approved by the company that night, and check issued to cover same. The check for \$1,000 was received here by Mr. Reed Thursday afternoon, just fifty hours after mailing the proof.

Will have on track Friday and Saturday one car of extra good wood for sale. \$2.25 at car. \$2.75 delivered. W. I. McCULLOCH.
For Sale: A good team of horses, wagon and harness. This is a cash proposition and a bargain. See C. G. Parsons or J. J. Ray. Phone 207.

Received Committee Appointment.

Frank Buchanan has received from Speaker Kennedy an appointment to a clerkship in the legislature. The appointment was secured through Hon. W. C. Davis, who notified the young man of his appointment by phone yesterday afternoon. Mr. Buchanan left at noon today for Austin to enter upon his duties.

PRIEST'S OPINION.

Thinks the Waters-Pierce Oil Company Will Apply For Another Charter. St. Louis, Jan. 25.—Judge H. S. Priest said the directors of the Waters-Pierce Oil company will meet soon and take up the matter forming a new company to continue business in Texas despite the ousting of the old company and the huge fine. Judge Priest said he believed the new charter will be obtained and that payment of the nearly \$2,000,000 penalties will not affect the company in any way.

Cakes and Candy.

I have a nice line of fresh home made fruit cakes and nice fancy cakes and candy.
Mrs. Otto Boehme.

The Home Mission Society of the Methodist church will give a tea at the residence of Mrs. Philip Hensarling this afternoon from 3 to 6. Everybody invited.

STOMACH AGONY.

Abolish the Cause, and Misery and Distress of Indigestion will Vanish.

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mio-na, the mighty dyspepsia remedy that cures by removing the cause, they would go to E. J. Jenkins this very day and get a large box of Mio-na tablets, and start themselves on the right road to health at once.

The price of Mio-na tablets is only 50 cents, and Jenkins guarantees them to cure indigestion or money back.

Thin or lean or scrawny people will find in Mio-na a matter of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.
